Over the past three months, the consensus estimate has sagged from \$1.25. For the fiscal year, analysts are expecting earnings of \$5.75 per share. A year after being \$1.37 billion, analysts expect revenue to fall 1% year-over-year to \$1.35 billion for the quarter. For the year, revenue is expected to come in at \$5.93 billion.

A year-over-year drop in revenue in the fourth quarter broke a three-quarter streak of revenue increases.

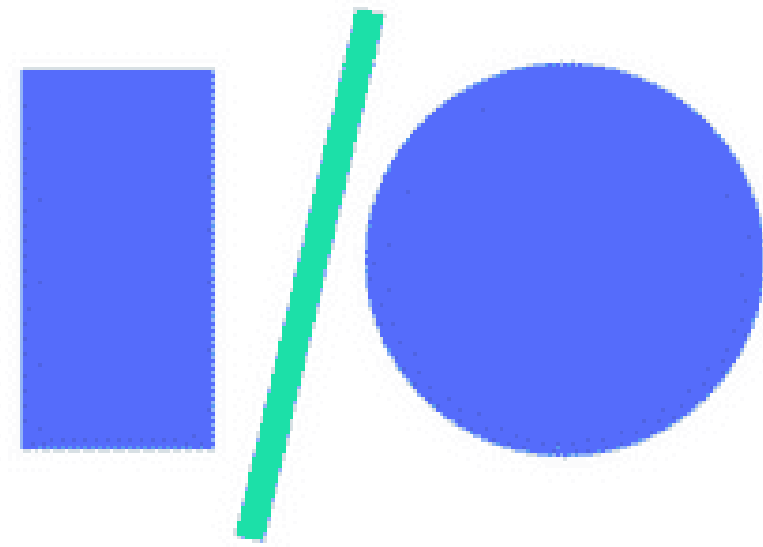

The company has been profitable for the last eight quarters, and for the last four, profit has risen year-over-year by an average of 16%. The biggest
